

CITY OF LAKIN
SIDEWALK IMPROVEMENT PROGRAM

Persons who are removing and replacing sidewalks which are parallel or in line with existing sidewalk within the Lakin city limits are eligible for a reimbursement of \$4.00 per linear foot. The following guidelines must be followed.

1. The City Building and Zoning Official must be contacted PRIOR to beginning of the removal of the sidewalk, or in the case of new sidewalks BEFORE work begins in the construction of the sidewalk.
2. All trees which have caused damage to the present sidewalk will be required to be removed before a new sidewalk is constructed.
3. If possible all sidewalks will be constructed adjacent to the curb. The sidewalks that are adjacent to the curb will be a minimum of 4 inches thick and 4 feet wide.
4. Sidewalks that are parallel to the curb will be a minimum of 4 inches thick and 4 feet wide.
5. All of the City's requirements for concrete and sidewalk construction will be followed to be eligible for the rebate. The construction standards will be regulated by the Building and Zoning official. A permit is not required for flat concrete work, but the rebate form MUST be completed and approved prior to construction to be eligible.

The City will budget a specific amount to be used for sidewalk rebates during the fiscal year. Once that budget amount has been met no more rebates will be issued during that year. Rebates are issued on a first come first served basis.
